The Coins comprised in the following Catalogue were, with very few exceptions, collected by the proprietor during a prolonged tour in all parts of Asia Minor. The most important portion of the Collection consists of Imperial Coins of the different towns of Asia; many are of the highest rarity, and in first-rate condition. When the preservation of a Coin is not otherwise specified, it must be understood to be in ordinary condition, and legible. The attention of Numismatists is particularly directed to the Imperial Series of Smyrna, and to that of the Lydian and Phrygian Towns.
